" OUR RESPONSIVENESS AT YOUR SERVICES "

MADAGASCAR ? Just wow as a destination. Simply a wonderful kaleidoscope of must-to go places for any travelers in quest of once-in-a-lifetime experiences. Several destinations in one: this can't be but the best and appropriate definition of the 8th continent.

A SMALL CONTINENT ON A VERY LARGE ISLAND

MADAGASCAR can't be confined to simple clichés. From the swell of the Indian Ocean to the calm of the West coast, from the Northern 'arrowhead' to the almost perfect 'bow' of the South coast, no sites are alike.

ENDEMIC NATURE RARELY FOUND ELSEWHERE

MADAGASCAR is a biodiversity hotspot, renowned for its unique and diverse ecosystems found nowhere else. It is home to a wide array of endemic species, including the Indri Indri and its baobab tree species.

SEAS FOR EVERYONE

From scuba-diving and surfing in some of the world's most beautiful spots to sailing from island to island on yachts, and humpback whale-watching. MADAGASCAR is the true paradise with its 5,000 km of coastline

OFF THE BEATEN TRACK, ADVENTURE TOURISM

MADAGASCAR's true magic lies in its off-the-beaten-path locations. From secluded beaches to remote villages and untamed wilderness, the country's hidden gems offer a more personal and authentic connection to the island's rich landscapes and cultures.

A LAND FOR SUSTAINABLE TOURISM

MADAGASCAR is home to approximately 5% of the world's plant and animal species. But the whole habitats are under threat from deforestation and climate change. Sustainable tourism is essential to preserve these irreplaceable resources for future generations.
